C. W. B. M. CONVENTION OPENS WITH REPORTS

Several Northern Indiana
Churches Represented at
Tuesday's Session—Will Ex-
tend Over Today.

Tuesday afternoon the convention of the Christian Woman's Board of Missions for this district, opened in the First Christian church, with devotional services conducted by Rev. J. M. Alexander of South Bend.

Most of the afternoon was taken up with reports from societies and churches at Angola, Kendallville, Warsaw, Elkhart, North Liberty, South Bend, New Carlisle, Corunna and Mishawaka. The reports showed a marked increase in the membership of the various organizations. An interesting feature of the reports was the references to the organization of junior departments since the last convention. Only one society, Kendallville, was represented as having a living link.

Following the reports, Rev. W. T. Trumbull of Kendallville, gave an address on the power of concentrated efforts and appliances, showing that the strength of the society in his church was due to such effort. He said that results depended in men and not in methods, although there were scientific assistances in this day. He cited two of such instances to bear out his statements. The people who are crowned with success, he stated, were those who are able to see further than others, and therefore plan ahead, working also to make the little things that count, fall in line.

After the address a conference of representatives was held during which the problems of the various societies were discussed. Mrs. O. H. Greist, state president, presided over the conference and gave a short talk. Mrs. E. W. Taylor, president of the Christian Woman's Board of Missions, presided over the afternoon session. Devotional Bible study occupied the early part of the evening session and was conducted by Rev. J. M. Alexander of South Bend. The speakers of the evening were: Rev. Car Van Winkle, cousin of Rev. E. K. Van Winkle, pastor of the First Christian church of this city and Rev. Merritt Owen of Warsaw.

CITY PREPARES GREAT GREETING FOR HOOSIERS

CONTINUED FROM PAGE ONE.

In order to relieve any congestion that might occur at the automobile gate Owner Smith has arranged to have admission ticket sellers at the starting point of the parade. The fans can then secure their duets and obviate waiting at the gate.

The Saginaw club arrived here last night and got in a good night's rest in anticipation of the fray with the Hoosiers this afternoon. Ducky Holmes appears to have gathered together a strong aggregation of players this spring and the 1914 pennant winners promise to give the Smiths a tough fight as starters. Holmes has picked his crack twirler to oppose the Benders. Haines last season proved to be one of the classiest hurling articles in the league and has been showing up fine this spring.

But Smith has also shown a man for crag duty who has shown and is showing spectacular ability from the box. Bill Smith's choice for the opener is a youngster who shows every sign of a prosperous future and the sandy haired Texan is prepared to meet Haines on any basis in the twirling game. The fray is expected to be a pitchers' contest as the two youngsters are primed for the affair.

Many of the fans will no doubt be anxious to see some of the crack men Smith has gathered together in action today. These stars include Jimmy Eschen, Glen Helmer and Joe Grodick. Grodick had not arrived here from Grand Rapids last night but was expected here this morning. He will take Ben Koshler's place at second base until the Hoosier pilot recovers and Larry Korfhagen will be at third base.

LAPORTE, Ind., April 28.—Warden Fogarty came to Laporte Tuesday in his machine to pay his taxes. The total time served so far by these five men is 142 years and six days or an average of nearly 30 years each. They are the oldest life men in the prison. Some of them had never been outside the prison walls and had never seen an automobile much less ridden in one, while the interurban and street cars were distinct revelations. The names of the lifers were not given.

What do you Buy When you Buy a Typewriter?

It isn't the machine—it's what the machine will do for you.

You pay for neat, well-written correspondence, for perfect carbon copies, for the quality and quantity of work your typist can turn out—in short, for the years of service you get.

If your inventory were made on this basis, you would find in the L. C. Smith & Bros. typewriter a much bigger asset than the price you paid for it and a much bigger asset than in any other writing machine ever made.

Can we prove this statement? Absolutely. Ask for our proof.
